For any DNA testing query you have, "EasyDNA South Africa" is your trusted company of choice. We provide you with a wide range of DNA tests, including [paternity testing](#) and relationship testing, with results

you can rely on. Our tests are set at affordable prices because we understands just how important being able to find the answers is.

EasyDNA's paternity test starts at only **R2395.00**

There are NO EXTRA FEES.

You know your results will be correct and reliable because your DNA testing is performed by an ISO 17025 internationally accredited laboratory through state-of-the-art genetic identification systems.

EasyDNA also tests **21 genetic markers** whilst many other companies just test 16. We work quickly, too. Once we receive your samples at the laboratory, the DNA test results will be sent to you via e-mail within only **5-7 working days**, so you do have to spend unnecessary time waiting for the results.

**Featured on:**

**Why choose us.**

Operating across South Africa with two branches located in Cape Town and Johannesburg, we make the process easy and convenient. Once your order is received, a [DNA testing kit](#) will be sent by courier to the address which you provide to us. For your confidentiality and peace of mind, all kits arrive in a discreet envelope. Kits can be sent to any place in South Africa including Cape Town, Durban, Johannesburg, Pretoria and Soweto. For further convenience for our clients, you can collect

your kit directly from one of our offices, in which case just let us know before your arrival so we can assemble and prepare your kit. We look forward to helping you with your test.

## We Support:

## 20 Loci Tested

Quality is in our DNA. We maintain the highest levels with every DNA test to provide you with a service that is faultless.

## Accreditation

With the highest, globally recognised accreditations, you can be assured that we're operating to the highest standards in the industry.

## Customer care.

We are a local DNA testing company with a team of experts ready to answer all your questions and guide you throughout the process.

## How it works

1

**Order test kit**

2

**Collect & send samples**

3

**Receive your results**

**Paternity testing.** A DNA test is the most accurate method available to confirm paternity, as well as the only legally approved way of proving a relationship should the matter be disputed in a court of law.

EasyDNA also offer immigration testing which can help our clients reunite with their relatives anywhere in the world. Since we test 21 genetic markers, the results of the paternity test will confirm whether the alleged father is the biological father with a minimum guaranteed accuracy of 99.99%.

If he is not the father, then the test's reliability is of 100%.

Our accredited paternity test for the child and alleged father is priced from only **R2395** and is inclusive of the paternity test kit, the analysis of the samples, and the DNA test report confirming the result. We also offer a highly accurate [non-invasive prenatal paternity test](#).

This is not just any test during pregnancy – it is a 100% safe prenatal test, without any risk for the mother and baby.

## **Other DNA tests.**

Are you biological related to your grandchildren? Are you really full siblings? When members of the immediate family are unavailable or unwilling to participate in a paternity test, we can still test for matching DNA and give you answers to any relationship questions you have. How is this done? We offer a wide range of [DNA Relationship Tests](#) including testing between Siblings Aunts/Uncles and Grandparents.

The most common test is the [DNA Siblings test](#) which is used to confirm whether two siblings are biologically related or not. We also provide DNA Art services so that you can have your unique genetic profile made into a colourful piece of art! DNA picture art is offered in a variety of different colours and formats. This would make an ideal gift for immediate members of your family who may also be interested in the family's genetic composition, or maybe for the grandparents of a baby to have something original as a memento.
