***Worm Eradicator.***

<https://youtu.be/I-6AK5DlpVo>

This is a product that brings to internal parasite control what no other de-wormer on the market can.

It obliterates all intestinal parasites, is a monthly Heartworm preventative.

Comes in a capsule form, and packs more punch than any commercial de-wormer in existence.

Each medium capsule contains -

151.475mcg of IVERMECTIN

140mg of PRAZIQUANTEL

150mg of PYRANTEL PAMOATE

40mg of FENBENDAZOLE

"Diatomaceous Earth" a 100% all natural ingredient that worms can't build a resistance against is included, along with some user friendly glitter as a colorful indicator that the medicine has passed, making Worm Eradicator an easy and effective way to completely control internal parasites with a minimal amount of effort.

Worm Eradicator will evict **all** internal parasites that infest our dogs. Nothing on the market can deal with all five canine parasites making this the most complete wormer you can possibly buy.

\* No wormer will keep a dog free of internal parasites longer than **15 days** if they live in or frequent a high risk environment of re infesting.

An dog can be completely clean of any worms although if placed in the same environment that they got worms to begin with and if the dog resides in a high risk of re infesting type of environment they will always pick up worms again from the ground or Tapeworms from fleas.

**Either the environment needs to be controlled or worming every 15 days may be the best way to use this product depending on how a dog is kept.**

If using Worm Eradicator every 15 days worms never have a chance to get established in your dogs, it is the only way to know 100% that there will be zero internal parasites present in any kind of environment.

Worm Eradicator is designed to be **a monthly wormer** but for some situations it would best be used every 15 days.

It is recommended that all pups over the age of 6 months that have not visited a vet be tested for the presence of adult heartworms before beginning treatment with a preventative such as Worm Eradicator.
